

North Tahoe Fire Protection District

A Career Opportunity

Engineer – Closed Promotional Opportunity

\$109,703.10-\$114,726.30

(Final Filing Date: October 27, 2023, at 1500)

North Tahoe Fire Protection District, located on the north and west shores of Lake Tahoe, is seeking highly motivated, experienced, and visionary fire service professionals to serve in the position of Engineer.

North Tahoe Fire Protection District
222 Fairway Drive
PO Box 5879
Tahoe City, CA 96145
(530) 583-6911

"Serving the fire and life safety needs of our community"

About the District

North Tahoe Fire Protection District was formed in 1993, following the consolidation of the Tahoe City Fire Protection District (Tahoe City, CA) and the North Tahoe Fire Protection District (Kings Beach, CA).

Currently, the district's 65 personnel support our mission: *The North Tahoe Fire Protection District provides the highest possible level of fire and life safety, rescue and emergency medical service, fire prevention and public education to the citizens and visitors of the communities we serve.* Our communities are situated on 32 square miles on the north and west shores of Lake Tahoe.

This map helps illustrate the size of the district. North Tahoe district boundaries are in the red and Meeks Bay is in the yellow.

North Tahoe Fire Protection District has six fire stations within the district, located in Alpine Meadows, Tahoe City, Homewood, Dollar Hill, Carnelian Bay and Kings Beach, and through an agreement with Meeks Bay Fire Protection District, two additional stations located in Meeks Bay and Tahoma. These stations are staffed by 51 uniformed personnel for nearly 15,000 people within the area we serve.

The varied demographics of the district provide opportunity for its personnel to respond to emergencies in rural, suburban, and urban settings. The wide diversity of emergency incidents requires firefighters to be proficient in wildland fire fighting, structural firefighting, back country/technical rescue, swift water rescue, hazardous materials mitigation, and emergency medical services.

About The Positions

The North Tahoe Fire Protection District is currently accepting applications for current and future job openings from qualified individuals for the position of Engineer. The eligibility list established from this recruitment will be used to fill current and future vacancies.

Under general supervision, drives, operates and maintains firefighting apparatus and equipment in compliance with District Fire Operations Policies, Local, State and Federal policies, rules and regulations; ensures that all equipment to which the person is assigned is in a safe operating condition; responds to fire alarms and emergency calls; maintains fire station and grounds; assists and/or participates in fire prevention activities and suppression training programs; may be required to periodically perform the duties of a Captain; performs related duties as required.

The applicant must maintain the physical endurance, muscular strength, and agility to satisfactorily perform the essential functions of an engineer, specifically including but not limited to stooping, lifting and/or carrying heavy objects, running, crawling, walking on uneven surfaces, working safely in or adjacent to moving water, climbing ladders, pulling heavy hoses and wearing and carrying heavy equipment.
