INCOMPLETE APPLICATIONS WILL NOT BE ACCEPTED

Review and acknowledge the following statements by checking each box:

Plan review turnaround is 15 business days from the date plan review cost recovery fees are paid. Do not contact our office during the 15-business day turnaround. Our staff will not respond to your inquiry. Once your review is complete, our office will contact you via email. Staff will notify the applicant of any plan review delays.

Carefully review all the submittal requirements; plans will not be approved with conditions. If any requirements are missing, plans will not be approved and will be subject to re-submittals and additional cost recovery fees. **All re-submittals trigger a new 15-business-day turnaround.**

Project in the basin (along the lake) - Once the DRC is reviewed and approved, the fire district will sign off the workflow in the building department system and add any fire flags/holds/notes that will be required for project final. The approval of this review will allow for permit issuance from the building if their requirements have been met.

Alpine Springs County Water District Projects – Once this review is approved, a copy of the fire-approved plans will need to be provided to ASCWD, if the project is in their jurisdiction. ASCWD mitigation fees need to be paid prior to permit issuance by the building department for projects in ASCWD jurisdiction. ASCWD will not sign off for permit issuance if mitigation fees are not paid. The building department-issued Permit Issuance Checklist is required to assess mitigation fees.

Design Review Residential 499 sq. ft. or less (DRC):

Check off the requirements to ensure all are met prior to submitting to help avoid non-approvals

An approved fire LAR plan review must be on file with the fire district.

A complete set of the construction plans; stamped and signed by the design professional(s).

The building department-issued project permit number.

- Placer Co projects. - If the Permit Issuance Checklist is already issued, include it with the submittal. If not issued yet, submit a copy to NTF once it is issued to avoid delays with fire inspections. Mitigation fees due for the project cannot be calculated without the building department-issued Permit Issuance Checklist.

The complete set of plans/submittal must include the following:

Applicable building codes and standards must be noted on the cover sheet. The list must include the applicable local ordinance: NTFPD Ord. 02-2022, MBFPD Ord. 22-01, or ASCWD Ord. 13-2022.

Building setbacks.

Roof materials are CBC 7a compliant without wood shake or shingle.

Location of the gas meter and protection requirement per the amended local ordinances.

Location of the electric meter and shunt trip device.

Other utility and secondary disconnects shall be identified (if applicable).

Driveway/roadway meets California Fire Code Appendix D standards with fire apparatus access.

Gates meet California Fire Code Appendix D standards with fire apparatus access and Knox Box (gate key) entry. (If applicable)

Fire sprinkler requirements must be noted on the plans – required for all new construction, demo/rebuilds, and if there is an existing sprinkler system in place. The sprinkler plan review will be a deferred plan review submittal and will not affect permit issuance by the building department. Section 903.6 of the amended local ordinances describes additional requirements.

Location of Knox Box (house key) – required if the house has/will have a sprinkler system.

Location of Smoke and Carbon Monoxide detectors and device cut sheets.

Signed Pre-Development Meeting Findings Form and Signed and Approved Alternate Materials and Methods Request (If applicable). These will be a result of a pre-development meeting with the Fire Marshal.

This project type will require a Final Defensible Space Inspection in addition to the applicable project inspections. Would you like to pay the cost recovery fee for the Final Defensible Space Inspection now or at the time of the inspection?

Yes, pay now

No, pay at the time of inspection

I hereby acknowledge that I have read the Fire District's requirements above for plan review. Furthermore, I acknowledge that if any of the requirements are not complied with, the plans/project will fail review and will be subject to re-submittals and re-submittal fees. By signing below, I am verifying that I have met the requirements for this submittal.
